Hagerstown, Md., April 26.— A resolution condemning six representatives and Senator John Walter Smith for supporting the Esch-Cummings bill was adopted by the Maryland and District of Columbia Federation of Labor in session here. The body also voted to use every effort to defeat the election of any of these men who in the future aspire for political honors. Senator Frank's stand on the bill was commended.

It was resolved to send a questionnaire to all candidates for public office demanding their stand on the Volstead act, the repeal of which is indersed by the federation. Britain and Italy, morally backed by America, continue to insist that if France allows herself to be rushed into the course of action mapped out by her military chiefs, she will endanger the Versailles treaty and undermine, if not rupture, allied unity.

France is opposed to all the powers in her desire for absorbing the Ruhr coal district and her known plan to extract from Germany by force the coal due the French under the treaty. The other allies are convinced such "strong arm" measures invite the economic collapse of Germany.

Italy reinstituted the censorship on outgoing news dispatches today, calling forth strong protests from British and American newspapermen, who sent their complaints formally to the supreme council.

As regards the differences between Italy and Jugo Slavia about the Adriatic settlement, its learned little if any headway has been made in the efforts to get together on that problem.

The program although beautifully rendered, was one which might have been chosen by the Paulist Choristers, with its sixteenth seventeenth and early eighteenth century, numbers predominating. Dr. Daylson might better have closed his program with a group of college songs which would have in no wise detracted from the artistic balance. As an evidence of the mood of the audience, the one song which demanded repetition was Granville Bantock's "Give a Rouse," which was sung lustily, probably because of the line "Who found me in wine you drapk once."

Among the many number's which deserve praise were Bach's "Now Let Every Tongue," with its real message; Morley's "My Bonny Lass," "Matona, Lovely Maiden," by Lassus, Bantock's "Lady of the Lagoon," and "Drake's Drum," by Coleridge Taylor.

A businesslike Answer to a businesslike Question

HIRTY denominations cooperating in the Interchurch World Movement have budgeted their needs. No business could have done it more scientifically.

They have united to prevent the possibility of duplication or waste. At least a million dollars will be saved by the fact that thirty individual campaigns are joined in one united effort.

Each denomination has arranged its needs under six main heads as shown at the left.

Each denomination has its own detailed budget, and will administer its own funds. Your pastor has copies of the budget: examine them for yourself. In the week of April 25th-May 2nd you will be given your opportunity to help. You can do it with the full satisfaction of knowing that every dollar of your gift has its post of service assigned to it in advance.

Every dollar for a better America and a better world. When your church calls on you, give—and give from your heart as well as from your pocket-book
